the full text he wrote me reads as follows . . .

Hamdy Al-azazy:

Thanks for your nice words , I want get the prize from God , I do this work and I am happy from 2006 until this moment , save thousands of Refugees from the hand of traffickers .I buried over 2000 most of them Eritrean , 1614 only in Arish , and I make especial cemetery for them , help thousands in Hospital , some died , but I have no money to save the expensive medicine for them , I want do more , but no budget , no body make any finance or help for me , UN or the Egyptian Government , but it ,s ok finally I succeed to stop this suffering for ever in Sinai , no trafficking any more in Sinai this moment . The problem make me feel sick , from my Experience for a long time , I can see more clear than any person out of Sinai , who really work from hard to help the refugees , and who use the Eritrean problems to make business , few Eritrean and Ethiopian , I know them very well and talk about them help the Refugees like Dr Alganesh , but another woman used the Eritrean problems to make Business , like Meron Estefanos , she live in Sweden, may be that is not logic for you and not accepted to believe , but this is the true , probably criticize than actually die , so that they provide better or change the shape of the performance in the delivery of humanitarian message . I only say what I saw. I sent thousands of reports and photos for a long time ago to (Meron) and I did not type on one day my name or the name of my organization on these images . I search diligently for the missing who received their photos and their information from (Meron) and I give her my respond in less of three days , there are thousands who asked me about , relatives and families from Eritrea , Sudan and Ethiopia . Some of them , i told them that their son or daughter was killed and these picture the body in hospital or at the burial. And for many times asked me (Meron) to attend to the Sinai , and frankly I am very happy , because I expected of her , that she will provide the maximum help to Eritrean children , women and young Eritrean in prison (Sinai , Egypt) , but , what I saw was just the opposite . Meron in Cairo attended a Mercedes limousine, with a team of French photographers who I met with them before and know them well , and they visit me and do program for Eritrean on French. (Meron) book five-star hotel + limousine Mercedes and a private driver for three days. Everything I did to (Meron)

interviews with people who have important in the case involving Eritrean , and took her to the police station to see the Eritrean and Sudanese , after asked the Director the police department that Meron will make shoot , and he did so courteous to me . Do not landed that (Meron) may come to work not only not visit humanity , Meron did not provide medicine or food or clothing to the poor Eritrean , I said to myself how much she spent , may be minimum 15000\$ dollars in ten days (first class tickets tow ways for her and the TV team , three person + five star Hotel in Sinai and Cairo for the same numbers+ rent Mercedes can with Driver + food in a high class hotel and restaurant during journey from hotels and Mercedes and she did not pay one dollar to the Eritrean & Ethiopian Refugees in the prisons to buy medicine for them .she only come to Sinai to make films and propagandas , not to save and help her people , Here the only criticize the behavior and not the luxury of criticizing human sample. I feel sick some time when I sow her to talk in Conferences, on video programs etc .
